

# Sonoline Shepherds and Rottweilers

## Breeding Quality German Shepherds and Rottweilers

**Breeder: Fawwaz Salman Tel: 786-417-0169**

### Sales Contract

The Dam and Sire of this puppy have certified normal hips by the OFA, the European Registry or my licensed veterinarian. They were carefully selected and free from any disease.

I guarantee against crippling hip dysplasia within 1 year from birth. This is on the basis that the puppy does not fall or sustain injury or is maltreated during that period.

Temperament is not guaranteed because of the environment and how the puppy is raised plays a big role in the temperament of the dog.

The buyer shall take the puppy to their vet within 72 hours after they pick up the puppy which is on \_\_\_\_\_.

If the vet finds any medical problem with the puppy he should notify the breeder, and the buyer has the right to return the puppy and pick up another puppy of equal value. This guarantee is void, if a female puppy is bred before 2 years of age and if the male is neutered. This guarantee is a replacement guarantee and not money back guarantee.
